Presentations For The Community

PRESENTATIONS FOR THE COMMUNITY

DPT Sport offers Presentations for the Community by Our Doctors of Physical Therapy

We are committed to adding value to society and helping to educate the public on various health and wellness topics

- Each clinician on our team has a doctoral degree in physical therapy and human movement sciences from the top ranked programs in the country
- Our Doctors of Physical Therapy (DPT) at DPT Sport have presented to numerous entities within the community, including non-profit organizations, local businesses, dance studios, athletic organizations, government agencies, retirement communities, and many more
- Our team has been asked to present to various groups within the medical community including: hospital systems, specialty and primary care physician groups, nurse case managers as well as doctoral physical therapy programs, rehab industry colleagues, mastermind peer advisory boards for physical therapy private practice, and the Illinois Physical Therapy Association (IPTA)
- Our expert therapist team includes: instructors who teach specialty content through formal continuing education courses for physical therapists around the country, board certified specialists, strength and conditioning specialists, sports performance/biomechanical analysis experts, and pregnancy and post-partum certified practitioners
- Due to rapidly changing medical advancements, our therapists make a personal commitment to constantly upgrade and improve their skills by attending well over the state licensure requirements in continuing education seminars and industry conferences
- Our DPTs here at DPT Sport have over four decades of combined clinical experience in various specialty areas including orthopedic, sports medicine, neurological, geriatric, pediatric, vestibular, pelvic health, and post-surgical rehab
- Our Founder has sat on expert medical professional panels at graduate level institutions speaking on various topics
- We also provide educational workshops and presentations to physician groups and other healthcare providers

Some examples of presentations that our Doctors of Physical Therapy have given include, but are not limited to:

- Arthritis & How to Avoid Surgery
- Global Health Awareness
- Fall Prevention
- Various Joint Disorders & Pain
- Pelvic Pain
- Osteoporosis
- Sports Performance
- Power Fitness Training
- Work-Specific Performance Training
- Golf Swing Analysis & Efficiency

- Injury Prevention
- Incontinence & Other Women's Health Topics

Interested in having DPT Sport come to your office to assess ergonomics in the workplace and discuss cost-saving injury prevention?

See our Workplace Presentations and Ergonomic Consulting page

Contact us at (630)230-9565 and ask to speak with our Practice Founder, Dr. Christine Klody, to inquire about availability
